ROW IN SENATE PERIS RELIEF FOR OKEECHOBEE

Filibuster Is Threatened On
Eric Canal Provision In
Rivers-Harbors Bill

WASHINGTON, May 15.—Threats of a filibuster in the senate against the \$110,530,027 house rivers and harbors bill which contains provisions for Lake Okeechobee flood control, were encountered with warnings that the house would keep congress in session this summer until the control measure is enacted.

Representative Tilson, of Connecticut, Republican leader of the senate, conceded that the report of a move to keep congress going until the bill is passed "is a very reasonable deduction."

Senator Vandenberg (Rep., of Mich.), who is fighting a provision for the federal government to take over the Eric canal in New York state, reiterated that he was going to "come long talking in the senate" before "this Christmas tree bill" goes through.

Senator Copeland, (Dem., New York), one of the leading proponents of the Eric canal provision, replied that he, too, is ready to filibuster unless the bill retains that provision.

The bill is now under consideration by the senate commerce committee, which must reach a decision on the row over the Eric canal and on two other major issues including a house provision for federal operation of the Illinois waterway, and several provisions for Great Lakes developments.

Confronted with threat of an all summer session, senate foes of the bill are standing their ground, but there are indications that an early move looking toward a solution of the deadlock.

One original advanced is that the bill might provide that the army engineers make a survey of the feasibility of federal operation of the Eric canal as a waterway for barges, authorizing the president to order the survey "in his discretion," if the engineers report is favorable. Here again, York senators are at odds. Copeland urging that ultimate action and Vandenberg insisting it must.

SELBY HOPES FOR HAPPY OUTCOME

WEST PALM BEACH, May 12.—Optimism regarding outcome of the hearing before the senate commerce committee for reduction of local contributions for Lake Okeechobee flood control, was expressed Saturday by Howie W. Selby, vice chairman of the Lake Okeechobee Flood Control District Board. Mr. Selby returned Saturday from Washington where Friday had appeared before the committee.

At the same time Selby stated that the government account in bills of cash at this time, owing to the present state of the market, making it practically impossible to market the bonds to produce the necessary cash.

Senator Johnson of California as chairman of the committee received the local speakers in friendly fashion, while with him who listened with Mr. Hills, Senator Allen, Kansas; Senator McNary, Oregon; Senator Ramsdell, Louisiana; Senator Gould, Maine.

Mr. Selby spoke in high terms of the excellent report made to the committee by Mr. Hills. Some fear was expressed by Mr. Selby that delay might be occasioned by opposition to the New York Eric canal measure, tied up in the flood control bill.

OKEECHOBEE CATTLE ARE SENT TO MISSISSIPPI

"Hank" Gregory is shipping 300 head of range cattle from Okeechobee to Mississippi. He is foreman on the Pine River ranch, near the mouth of the river, and is going into business for himself at his old home, Hamburg, Miss.

MACHINERY RECEIVED FOR CORN ELEVATOR

Foundation has been put in at Okeechobee for the Eric canal. The mill and elevator Company corn elevator, of which Orylle Sebring of Sebring is the promoter. The structure is being raised and machinery has been received.

Want U. S. To Loan \$3,000,000 On Bonds

Senator Park Trammell has introduced an amendment to the House rivers and harbors bill to increase from \$4,464,000 to \$3,000,000 the contribution of Okeechobee Flood Control District to the cost of work proposed to be done in the Lake Okeechobee and Caloosahatchee river areas.

The amendment provides that the government lend the district the \$3,000,000 on the district's bonds. The amendment was introduced by Senator Trammell and Representative Ryan. The Flood Control District attended the meeting Friday of last week of the Senate committee on commerce to argue for a reduction in the amount of the local contribution.

PAST DUE TAXES SELL ON JULY 7

Delinquencies To Be Advertised
In This Paper
For Four Weeks

The delinquent tax sale in Palm Beach county will be held at the court house in West Palm Beach on the first Monday in July, which is July 7, and the advertising of the delinquent tax list will start in June in order to allow the delinquents to run for four consecutive weeks.

List of lands in the Palm Beach county portion of the Everglades Drainage District on which taxes are unpaid will be printed in The Everglades News and the first insertion of the legal advertisement will be in the issue of this paper of June 6. Delinquent taxes for South Florida Commission District will also be published in The Everglades-News at the same time.

County Tax Assessor Roy A. Bannan has furnished The Everglades News with the "copy" for the delinquent tax lists of the two drainage districts, and the list has been put in the hands of the publisher of the paper. The Everglades News is the only newspaper in Palm Beach county that is published in Everglades Drainage District.

The list of lands on which taxes are delinquent is separate from the drainage district lists, and the delinquent tax list will be printed in a West Palm Beach daily paper. Taxes were levied for October 1, 1934, and the list of delinquencies for the publication of that district are reported to have been put in the hands of the publisher of the paper.

SEARS, MARSHALL AT ROTARY CLUB

W. J. (Joe) Sears, former congressman from the Fourth district, was a speaker at Jacksonville, was a speaker at the weekly luncheon of the Rotarian Rotary Club held at the civic lunch Friday. He related experiences in making officials of the federal government and other persons understand the size of the canal, and suggested in another connection that when support is wanted for legislation, it should be written by Florida, and the congressman from the district in which the new Florida is formed.

Mr. Marshall told of the excellent progress being made for a larger acreage of frost resistant vegetables in the town of having. All of the members of the club were present except those who were out of town on matters of the community advertisement.

HE DIDN'T SAY IT!

An article in the Palm Beach Post of recently purported to quote the publisher of The Everglades News as saying that the article was a contribution to the publication. In this respect the article was a lie. The publisher of The Everglades News did not make any statement to the Post about the article.

The publisher of The Everglades News is not sure about it, however, for he knows letters he has received from a party who has a story to be told in this story to "somebody." It is this kind of story that in a case of pick on Ed Simmons or Pat Carroll, who live on the other side of the river, and thus get both sides of the story.

SEEK METHOD TO GET FULL USE OF PORT FACILITIES

Inlet Board Meets At Pahokee and Gets Views
of Residents

How to bring about an actual connection between the Everglades portion of Lake Worth Inlet District and the Port of Palm Beach, the harbor at Riviera, was the major discussion at an adjourned meeting of the commissioners held Tuesday evening at the town hall in Pahokee. At the opening session the West Palm Beach board met at 2 o'clock a contract was awarded to Clark Dredging Company of Fort Lauderdale to remove 10,000 cubic yards of sand from the channel to its 16-foot depth. The commissioners then adjourned to receive the views of the residents.

Formation of a special benefit district in West Palm Beach canal territory to improve drainage facilities projected as an "improvement unit" and the work proposed to be done will assist the use of the canal for navigation. Likewise a canal to start at a point north of Canal Point and run south of St. Lucie canal to the east coast has long been considered. All of the "road canal" between Hillsboro canal and 20-Mile Bend is in the inlet district, and there is possibility of the use of the road canal to move produce from the Brown Company farm to the market.

The question considered was how to utilize these projects for the benefit of the Palm Beach and the Everglades section. No attempt at decision was made, the object of the discussion being merely to exchange views with a view to future consideration later.

Captain A. S. Andersen and R. H. Corwin were the members of the inlet district who were present. They were accompanied by H. W. Terry, Gibson, and R. T. Merrill, agent for a steamship line. The board of directors of the South Florida Commission, H. A. Bestor of Clewiston, drainage engineer, and Elvin A. Bass of Pahokee took part in the discussion.

The board of directors of the Everglades Drainage District, in cooperation with Okeechobee Flood Control District, expects to provide a channel on the shore of Lake Okeechobee from St. Lucie canal to Moore Haven by way of the route of the Palm Beach and Clewiston, a channel with which West Palm Beach canal will be connected at Canal Point. The east coast canal, with which the Port of Palm Beach has connection, will be put in the future under an appropriation; by congress. Opportunity is seen to connect the Port of Palm Beach with the Atlantic coast by a cross state canal by way of West Palm Beach, Fort Myers, being the Gulf of Mexico terminus of the project of improvement of Caloosahatchee river as part of the flood control program.

Road Contract Uses Drag-Line

A dragline machine operated by Wilson Brothers, contractors, is making grade on a portion of the new road between the Port of Palm Beach and the town of Riviera, having started at Runyon station on the east side of the railroad and working north through the railroad on that side of the new route. The dredge will continue north to the point where the dragline started. Traffic is not interfered with.

State road department forces put Belle Glade-Pahokee road in the best condition it has been in since the road was first built and is generally used in preference to Conners highway during the Bean Festival.

MARSHAL IS OUT

H. C. Stuart, who has been marshal of Belle Glade for several months, has been laid off and Mayor J. H. Greer has appointed the duties of that office, with the general police supervision of the town. The problem of the town council is the payment of a \$500 advertising bill from the Miami News for a "write up" over a year ago.

B. Bowlegs Paid For Good Fair Weather

One of the voucher-checks approved by the Bean Festival committee read like this: "To Billy Bowlegs for furnishing good weather \$5."

Billy Bowlegs is a Seminole Indian, and being a child of nature he is supposed to know about the weather. When dates for the festival were being fixed, W. G. Stovall, who was in charge of the festival, asked what the weather was likely to be May 7 to 11, and Billy said the weather would be good.

"If you will guarantee good weather we will pay you \$5," Mr. Stovall offered. Billy Bowlegs delivered on the contract and on the following day the American Legion is to pay him the \$5.

POLLING PLACES IN JUNE PRIMARY

Where To Vote and Names
of Officers Who Conduct Election

For the primary election to be held throughout the county Tuesday, June 3, the county commissioners have designated the following polling places in the Everglades section of Palm Beach county and named the following officers to conduct the election.

Precinct No. 32: Thorgeason's store, Loxahatchee. Inspectors, Mr. M. Thorpe, S. E. Perrault and T. K. Benson. Clerk, C. Thorgeason.

Precinct No. 35: Pat Carroll's filling station, Canal Point. Inspectors, Mrs. Clinton G. Coburn, Mrs. John Fultz, O. D. Taylor, and T. K. Benson. Clerk, C. Thorgeason.

Precinct No. 36: City hall, Pahokee. Inspectors, J. R. York, Mr. E. M. Johnson, W. Armstrong, H. H. Roy Lang.

Precinct No. 37: Hooker & West's store, Clewiston. Inspectors, H. W. Terry, Gibson, and R. T. Merrill. Clerk, J. B. Leathers.

Precinct No. 38: City hall, Belle Glade. Inspectors, C. E. Reidel, J. H. Greer, and R. E. Greer. Clerk, C. E. Reidel.

Precinct No. 39: Denton's filling station, South Bay. Inspectors, Mr. M. Thompson, A. V. C. Denton, D. H. Walker. Clerk, H. C. Willis.

Precinct No. 40: Wingfield's store, Riverview. Inspectors, E. G. Price, Mand Wingfield, Claude O. B. Price, and C. S. Greer. Clerk, C. E. Reidel.

Precinct No. 41: Brown's store (Brown farm), Shaver. Inspectors, J. C. Stanger, B. A. Joseph, W. P. Smith, John Newhouse.

STUDIES CANE BORER. H. E. Haley of the U. S. Bureau of Entomology, is spending several days at Everglades Experiment Station, where he is studying the life history of the sugarcane borer.

Research Work In Glades Aided By Additions To Station's Staff

H. H. Wedgworth, who was appointed associate plant pathologist for Everglades Experiment Station at the March meeting of the board of directors, arrived at the station on Wednesday, and during the early in April to take charge of the botanical work. Contracts have been given for a section of the laboratory building and the cottages and the staff having been increased, the station is starting on the new work.

Mr. Wedgworth graduated from the Mississippi A. and M. College in 1924, and has since been in the research department of the National Research Council. He has been in the research department of the Michigan Agricultural College, during this period a considerable amount of time was given to studies upon potato scabs. In the course of his work besides fulfilling the requirements for the degree of master of science and carrying teaching responsibilities, he has also conducted courses in vegetable pathology and in the phases of the science of weeds.

During the years 1924 and 1925 Mr. Wedgworth served as inspector for the Mississippi State Plant Board with headquarters at Baymont, near Bay St. Louis, Mississippi. As an assistant to the state plant board, considerable time was given to research work upon the pathological and entomological problems of the nurseryman, horticulturist and truck farmer.

In 1925-1926 Mr. Wedgworth was instructor in plant pathology at Cornell University and during this time he conducted further research towards the doctorate in this department. From this work he received his Ph.D. degree from Cornell University in 1926. Mr. Wedgworth has been associated with the plant pathology department, where he handled administrative and research duties in connection with the truck crops and ornamental plants. During this period upon the research work was carried out in the field of Mississippi plant pathology, where he handled the duties of sweet potatoes, tomatoes, cabbage, gladioli, etc.

Following this very valuable experience in the southern field of plant pathology, in this position he was responsible for the execution of research work upon the truck crops and ornamental plants. During this period upon the research work was carried out in the field of Mississippi plant pathology, where he handled the duties of sweet potatoes, tomatoes, cabbage, gladioli, etc.

LEGION SUCCESS IN OUTCOME OF BEAN FESTIVAL

Work of Post Committee
Seen As Service of
Public Value

The Bean Festival, having delivered in detail on all of the promises made by its sponsors, through the C. M. Point-Pahokee East Beach post of the American Legion, came to an end Sunday night, leaving a record of the biggest celebration ever given in the Lake Okeechobee region. The post has made money, much money, but enough to pay a new bill of wealth of experience is a fund from which to draw for the successful and profitable conduct of next year's festival.

The festival produced for Pahokee a great deal of publicity in a wide area of high value and gave the post a new lease of life. The festival was a success in all of its aspects and the line of its progress; visitors had the pleasure of rides on Lake Okeechobee in a historic steamboat; air-mindedness was extended by the thrill of rides in the airplane and the boat races and a precedent for a new bill of wealth of experience is a fund from which to draw for the successful and profitable conduct of next year's festival.

Diversity of Production Prolongs Season of Glades Farm Activity

This is getting to be an all-year-round country.

A quick trip Tuesday covering about 40 miles of lake shore, from Port Mayaca at St. Lucie canal and Belle Glade south Bay districts to Lake Harbor on Miami through the C. M. Point-Pahokee East Beach post of the American Legion, came to an end Sunday night, leaving a record of the biggest celebration ever given in the Lake Okeechobee region. The post has made money, much money, but enough to pay a new bill of wealth of experience is a fund from which to draw for the successful and profitable conduct of next year's festival.

PAHOKEE

E. P. Jackson, member of the board of public instruction of Palm Beach county, was out Sunday for the bean festival.

Roy A. O'Bannon, Palm Beach county tax collector and member of the board of public instruction, was among other prominent visitors here during the bean festival.

Miss Elizabeth Caraway is spending the week and with her sister, Mrs. W. A. Howell and family before returning to her home in Birmingham, Ala.

J. H. Tidwell is ill at his home this week.

Little Harriet Sheppard has been ill this week.

Mrs. Duff of Okeechobee, formerly of Pahokee, was here during the bean festival.

Mr. and Mrs. Earl Swain entertained friends from West Palm Beach Friday.

Mr. and Mrs. Long of Okeechobee were Pahokee visitors Sunday.

The Methodist Missionary Society met Tuesday afternoon, at the home of Mrs. Rice.

J. C. Carothers is ill at his home this week.

Mrs. Harold E. Wallace is spending the week with her mother in Winter Garden.

Miss Belle Yarborough of Morgan, Ga., is visiting her brother, C. A. Yarborough and family here.

Mrs. W. B. Bryson and son, Fred Gray, spent a few days in Pahokee this week. They expect to leave for Tennessee Sunday.

Mr. and Mrs. J. W. Crutcher and Mr. and Mrs. H. B. Crutcher left this week for Alton, Ill., because of the illness of Mr. Crutcher's mother.

Mr. and Mrs. W. S. Lowe and Mrs. Paul of Indianwood were visitors in Pahokee and Canal Point during the bean festival.

CREEL CASE PUT OFF.
Trial of Dr. Charles Edgar Creel of Pahokee, charged with slaying Regard H. Stokes, negro at Pahokee on April 20, has been continued by the court subject to call. The case was set for trial last Tuesday.

The continuance was granted, in motion for the defense, who said press of other business would prevent him from being prepared for the case. State Attorney L. R. Baker consented to the continuance.

The court granted the motion, allowing the continuance subject to call and set for trial the June term of the court.

Men who have been served jury summons for the case need not appear at court. State Attorney Baker said after the announcement was made.

GOOT TON FERTILIZER.
Hubert Spooner got the ton of fertilizer that was awarded by the Lake Shore Sugar Company at the close of the Bean Festival. The award was made from among the persons who registered at the supply company's booth.

ABOUT PEOPLE

Curran Gantt, son of C. C. Gantt, of Moore Haven, has graduated from the radio training school at Hampton Roads, Va., a navy school. He is visiting his folks at Moore Haven.

Joan, the 6-year-old daughter of Mr. and Mrs. Edie Drake of West Palm Beach, is being trained as an acrobatic dancer. She is the granddaughter of the Mr. Hooker who was bugle leader at Belle Glade for several years. Joan and her mother visited relatives at Hampton last week.

Colonel J. P. Harbison, U. S. A., retired, who spent a portion of this winter at West Palm Beach, departed this week on his return to Flemingsburg, Ky., his old home. He owns half a section of land near Belle Glade and a reason for his stay in Florida was to look after his farm.

Attorney Edgar C. Thompson of West Palm Beach was at Clewiston Monday to represent a client in court action. He returned to West Palm Beach by way of Canal Point to note the condition of County Jail. Judge Thompson was state attorney when the circuit embraced Okeechobee and Broward counties as well as Palm Beach county and what is now Martin county. In consequence of his long residence and his active part in public affairs he is well known throughout the Everglades.

41 KINSMEN AT DINNER.
Forty-one relatives of G. W. Bryant of Citrus Center took dinner at the home of Mr. and Mrs. J. H. Bryant Saturday night. They were children, grandchildren and great-grandchildren. Fifty-one were unable to attend.

STARR SELLS MARKET.
GOES TO ORLANDO.
F. O. Starr has sold his grocery market stand in Pahokee to G. M. Poole, the meat cutter, and will go to his old home in Orlando, where his father, president of the town, is preparing to retire from active business and F. O. Starr will take his place. Mr. Starr is a charter member of East Beach post of the American Legion. The sale of the grocery was made several days ago but Mr. Starr remained in Pahokee to act on the committee of the post in conducting the Bean Festival.

BAPTIST CHURCH, PAHOKEE.
Services on Sunday.
Bible school, 10:30 a. m.
Preaching at 11 o'clock; subject, "The Double Minded Man." Evening at 8 o'clock. "The Atonement of the Gospel of Christ."

B. Y. P. U. will meet at 6:45 and all the young people are invited to attend. The subject, "The Meaning of Church Membership," is a very timely subject for our church of this time, when so many of our young people have come into the church. All are invited.

S. A. BUNNICK, Pastor.

HOW NOT TO STUDY.
Mervin Herring.
The first thing of course, is to get to the study hall. The proper time for entry is just as the bell rings. Don't make any effort to be quiet. Noise is all that keeps people awake. Having arrived at the desk, place your books on the desk by dropping them from mid-air. Then drop heavily into your seat. As personal appearance is a great asset, inspect your face in a pocket mirror next. No one else needs a repousoir or the necktie demands adjustment. A stick of gum is now in order and the wrapper may be placed in the desk. Next open your book to the lesson. Shorthand through your tablets. At the time chewing heartily on your gum and get a sheet of paper for writing notes.

Then turn your countenance toward the window and stare vacantly at the scenery outside. Perhaps ten minutes of this will be sufficient to make it tiresome. Perhaps for the next five minutes a general view of the page of the open book may be interesting. Then a few minutes correspondence with a near by neighbor will be quite appropriate. Great care must be exercised in order that the communication not be interrupted by the teacher. The risk of being caught at this pleasant pastime is small, however, because you have an excellent system and the teacher has so little experience in watching students.

You may relax and fall into a deep slumber. If you talk in your sleep or breath unusually loud it will not use the common word for it) you may attract the attention of the teacher. It is best to awaken before the bell rings. In order that no time may be lost at the end of the period, quickly arrange your books in a neat pile and sit empty handed waiting for the bell. You are not to study during the last five minutes although some teachers expect you to do so.

Frequently you can get by, by letting an open book remain before your eyes until the bell rings. As soon as the bell rings, jump quickly to your feet and file slowly to the door of the study hall. It has been thoroughly tried out by many "students" and their testimonials, recommend it unconditionally as the best method for those seeking a lengthy education for many years in high school in exchange for a negligible amount of effort.

NATIVE OF ITALY LIVES AT PAHOKEE

Italy, with her crowded population, loses many of the best citizens to the United States. She lost one in Carmine Salvatore, who came to this country when he was four years of age and the family settled in Newark, N. J., where Carmine had a common and high school education. In 1913, he left the eastern part of the United States and traveled all over the Atlantic states, landing in Florida in 1915 at Miami. There he worked on the James Deering estate for three and one-half years and met Miss Ella Woodward. They were married. When the United States declared war on the Central Powers, he enlisted in the Coast Artillery and served overseas. He was honorably discharged in 1919 and came to Pahokee on February 16 of this year.

The East Beach was in an undeveloped state, but he had the stuff in him of which real men are made and he stuck by his business, which has prospered. He is located here permanently, has a home for his family, takes an active part in the American Legion, of which he is a loyal and respected member. He was one of the first organizers of the East Beach Post No. 80, and was elected the first post commander. While holding that office he and his buddies built the Legion arena and club house, one of the best of its kind in the state of Florida. He has the interest of his adopted community at heart and is always ready to do whatever comes to hand for its advancement. Italy may send some more Carmine Salvatores to us. We need more of his type.

NOTICE.
Notice is hereby given that an adjourned meeting of the Town Council of the Town of Pahokee, Florida, will be held on Thursday, May 16, 1930, at 8 o'clock, at the Court House, Canal Point, Florida, for the purpose of receiving and considering the report of the Board of Public Works, and for the purpose of transacting such other business as may come before the Council.

A. D. 1930.
All persons who have signed on said date will be considered.

YORK'S LUNCH ROOM
TRY OUR VEGETABLE PLATES
We grow our vegetables and raise our chickens.
GOOD EATS

There is almost every community a movement to encourage people to patronize local merchants and industries. Few people realize that the small sums of money sent by them outside of the state mean so much to themselves and their communities. Every dollar in the state should spend only a dollar a month for out-of-state commodities that could be purchased as well in his local community or state. 18 million dollars would be sent

AROUND THE LAKE

Beans, peppers and tomatoes were shipped from Lakeport last week.

Enumeration has been completed at Moore Haven but the figures of population cannot be reported yet.

Arrest has been made of negroes who had in their possession high explosives from Moore Haven home. It is believed the negroes came from Belle Glade.

Before Mrs. O. C. Head left Lakeport for Lake City to join her husband, a surprise party was given her at the Lakeport church and she was presented with a purse of money as an evidence of appreciation of her work with the children of that place and Big Bare.

WENT TO FUNERAL.
Mrs. Arlin R. Adams died Sunday at her home in Glenwood, Ga., and was buried there Monday. Mr. and Mrs. W. A. Adams and Mrs. Tom Adams, brothers and sisters of Mrs. Arlin, attended the funeral, returning to Canal Point yesterday afternoon. Arlin worked for Thomas & Barrett, Gulf distributors, until recently.

AT the REQUEST of MERCHANTS...

FLORIDA POWER & LIGHT COMPANY
MIAMI, FLORIDA
December 15th,
1928

Employees of Florida Power & Light and Associated Companies.

Dear Employees:

I would like to present to you the desirability and advisability of patronizing the merchants and businesses in the community in which we so business. During the winter season many customers from outside the state come into these communities seeking Christmas gifts, and many of the state's outages. Also many purchases are made from out of the state outages.

These purchases and mail order houses pay no taxes, but no merchandise, pay no light or power bill, maintain no payroll within the state, and do nothing toward the development and maintenance of the state. They take your money and spend it in the state and out of the state. It all too frequently happens that the money sold is inferior to that which may be purchased locally.

In checking over our employment list I find that our employees have a tremendous purchasing power in the communities we serve. If of Florida whose money is earned, it would be an important factor in stimulating Florida's prosperity.

You can readily see that if you, and each of us, and all the people of Florida do this, their money in Florida industries and each of us in kind, will be benefited; for more business means more money and more money means more business. So really we are all helping ourselves to earn a living by helping the other businesses to make a living.

It is my opinion that money made in Florida should be spent in Florida for the benefit of those who live in Florida.

Yours very truly,
J. H. Tiffin
Vice-President & Gen. Mgr.

MATERIALS HERE FOR

U. S. LIGHTS ON LAKE
Lighthouse station boats 17 and 21 are en route from Key West to set foundations for 11 wrought iron structures for lights and beacons on Lake Okeechobee, some new and some to repair damage done by the 1928 hurricane. Much of the material has arrived at Canal Point. The appropriation is \$20,000 and the work will be done under the supervision of Captain John Peterson and will require three months.

What do you pay for extra equipment?
ONE of the things to find out before you decide on an automobile is this—"How much extra equipment will I have to buy and how much will it cost?" Sometimes, you know, the cost of "Extras" is added to make up for too high an allowance on a used car.

There's mighty little extra equipment on a new Ford and the prices are unusually low.

COMPARE THESE PRICES
Ford Bumpers \$15.00
Extra tire and tube 12.50
Tire lock 3.50
Rumble seat (Coupe or Roadster) 25.00

In these five items alone you save nearly \$40 from the usual charges for another instance of Ford efficiency and economy in manufacturing and distribution.

Call or telephone for demonstration.
